

CARPET BEETLE PREPARATIONS

1. Vacuum and/or mop entire floor areas and in hard to reach areas such as behind refrigerator, washer, dryer, oven, hot water tank along baseboards, in cold air returns and heating Ducts. Vacuum under all loose rugs. Check for infestation under All furniture and vacuum thoroughly under **ALL** furniture.
2. Check for infestations in all woolen and cotton garments, remnants and furs. Have any infested items professionally dry cleaned or run thru the dryer on hot for at least 30 minutes. Leave items out of drawers and closet for treatment.
3. Remove any old birds or bees nests that may be in crawl space or attic area. If there are old nests that cannot be removed there may be additional charges to treat these areas.
4. **Remove ALL** items from cupboards, drawers and pantry's that contain food items. Items are to be left out of cupboards for treatment. Check **ALL** dried food items for infestation. Throw away any infested products. Put all dry products into sealed containers.
5. Pick up any small items from floor areas, tops of closets, and under beds. Vacuum thoroughly under beds and tops of closet shelves and any drawers where infestation has been seen.

People and pets are to be vacated during treatment and after for a period of 4 hours.
