

COCKROACH PREPARATIONS

*****NOTICE TO TENANT: IF ALL ITEMS ARE NOT COMPLETED YOUR UNIT WILL NOT BE TREATED. YOU MAY BE RESPONSIBLE FOR PAYMENT FOR US TO RETURN AT A NON-SCHEDULED TIME TO TREAT YOUR UNIT. IT IS MOST IMPORTANT THAT ALL UNITS BE DONE AT THE SAME TIME TO ACHIEVE 100% CONTROL.**

ITEMS TO BE COMPLETED BEFORE TREATMENT

1. Remove all food, dishes, pots, pans, towels, silverware etc. from ALL kitchen and bathroom cupboards and drawers. Items may not be left on the kitchen or bathroom counter tops or in sinks. Remove drawers and stack empty drawers in a criss-cross pattern on the floor. Also remove any breadboards. Place items on a table and throw a sheet over the top.
2. Remove all pets from the unit for at least 4 hours from the beginning of the treatment of your unit.
3. People are also to be out of the unit during treatment and afterwards for at least 4 hours from the start of treatment on your unit. If you have any medical problems it may be advisable to be out longer. Please consult with your physician.
4. Disconnect all smoke alarms.
5. Move furniture away from walls by at least 2 feet.
6. Remove bottom drawer from oven and clean that area. Leave the drawer out.
7. Pull refrigerator out by at least one foot and clean that area. Leave out from the wall so this area can be treated.

CLEAN UP: ALL SURFACE AREAS SUCH AS COUNTERTOPS, SINKS, AND THE BOTTOMS OF CUPBOARDS SHOULD BE WIPED DOWN BEFORE PUTTING ARTICLES BACK. DO NOT WIPE BASEBOARDS, CRACKS OR CREVICES UNDER SINKS OR IN CUPBOARDS, AS YOU WILL WASH OFF CHEMICAL RESIDUAL. YOU MAY STILL NOTICE SOME ACTIVE COCKROACH INFESTATION FOR A COUPLE OF WEEKS FOLLOWING THE INITIAL TREATMENT BUT THIS IS NORMAL AS THEY ARE BEING FLUSHED OUT FROM WALL AND CEILING VOIDS.

ANY QUESTIONS PLEASE CONTACT OUR OFFICE ANYTIME MON-FRI BETWEEN 8AM AND 5PM
